Welcome and introductions – Michael Somers

SHAC Survey Results - Raina Goldstein Bunnag

- Will share out results
- Highlights →
 - Best things about SHAC: collaboration, community, everyone’s passion for improving student health
 - Ideas for improvement: create clear goals, communicate action items
 - Best way to spend time during meetings: a combo of guest speakers and work groups
 - Ideas for topics/speakers: mental health, family supports, additional community organizations
 - Timing: works for some but not others, will send out Doodle poll
- Discussion
 - Made in Durham was a student-led event, could SHAC participate in this or something similar?
 - Equity – when we talk about equity, we need to make sure we are clear on what definition we are using. DPS has an Equity Affairs office, we could connect with them.

Updates - Michael Somers

1. R&P Check-in – Due 3/31 - What support does each group need?
 - a. Physical Activity group asked for support on the SHAC survey
2. Wellness Policy Triennial Assessment
 - a. We need proof that we have reviewed the wellness policy and assessed it → need to put it on the website
 - b. Someone in DPS is going through all the minutes to put up on website (starting with dental home project), so this is good timing for our needs
 - c. We used the WellSat tool in the past, we can post our results from that assessment
3. SHAC Youth involvement – application process
 - a. Students interested - 4 at Southern interest, 1 at Riverside
